

## 7 DAYS BIG 5 LODGE SAFARI

### OVERVIEW

This safari package will give you the exciting opportunity to visit the most beautiful parks in northern Tanzania. This includes visiting the endless plains of Serengeti National Park, where you will be able to see all the major safari animals in great numbers. You will also visit Lake Manyara, which is famous for its flamingoes and tree-climbing lions, which are unique to this region. You will also see Ngorongoro Crater, which is locally known as the "garden of animals," where there is a big chance to spot the big five all in one day.

All our African wildlife safaris specifically include the Ngorongoro Conservation Area and the world-famous Ngorongoro Crater in Tanzania. This specific Africa safari and travel itinerary has been designed for visitors with more time on their hands for a longer safari tour. It specifically includes Tarangire National Park and has been designed to offer you a total Tanzania northern circuit safari experience while attempting to keep your non-game-viewing travel time to a minimum.

This unforgettable Africa safari package will take you to Lake Manyara National Park, one of Tanzania's most dramatically located wildlife areas, consisting of a shallow but huge soda lake located at the foot of the Great Rift Valley's western escarpment. The park's size makes it perfect for a one-day game drive that is notably famous for its tree-climbing lions. This safari will also take you to Serengeti National Park, a massive wilderness of 14,500 square km, where every day brings a new landscape and a new adventure. It will also take you to Ngorongoro Crater and the Ngorongoro Conservation Area in Tanzania, featuring one of the highest concentrations of game and arguably the densest population of predators and carnivores in all of Africa. Here you will witness an amazing spectacle of African wildlife – inside a self-contained world teeming with animals.
