

9 DAYS HIGHLIGHTS OF TANZANIA SAFARI

OVERVIEW

This safari lets you witness the **Great Wildebeest Migration**. Over two million wildebeest, zebra, and gazelle move through the Serengeti and Masai Mara ecosystems in search of green pastures and safe calving ground. Their movement is highly weather dependent and dynamic, yet with advance planning and a bit of luck you can witness this natural wildlife wonder. This safari covers other national parks too, where you can witness resident game. The tour is available throughout the year, but opting for it in the right season will leave you awestruck.

All of our African wildlife safaris specifically include the Ngorongoro Conservation Area and the world-famous Ngorongoro Crater in Tanzania. This specific African safari and travel itinerary has been designed for visitors with more time on their hand for longer safari tours. It specifically includes Tarangire National Park and has been designed to offer you a total Tanzania northern circuit safari experience while attempting to keep your non-game-viewing travel time to a minimum.

This safari also takes you to Serengeti National Park, a massive wilderness of 14,500 square km, where every day brings a new landscape and a new adventure. It will also take you to the Ngorongoro Crater and the Ngorongoro Conservation Area in Tanzania, featuring one of the highest concentrations of game and arguably the densest population of predators and carnivores in Africa. Here you will witness an amazing spectacle of African wildlife inside a self-contained world teeming with animals. Finally, your safari will take you to Tarangire National Park, which once again features some of the greatest concentration of game in Tanzania – second only to the Ngorongoro Crater – but less crowded and unspoiled, possessing a wild and unkempt beauty.

This unforgettable African safari package will take you to Lake Manyara National Park, one of Tanzania’s most dramatically located wildlife areas, consisting of a shallow but huge soda lake located at the foot of the Great Rift Valley’s western escarpment. The park’s size makes it perfect for a one-day game drive and is notably famous for its tree-climbing lions.
