

7 DAYS NDUTU MIGRATION SAFARI

OVERVIEW

This safari lets you witness the **Great Wildebeest Migration**. Over two million wildebeest, zebra, and gazelle move through the Serengeti and Masai Mara ecosystems, searching for green pastures and safe calving ground. Their movement pattern is highly weather-dependent and dynamic, yet with planning and a bit of luck, you can witness this natural wildlife wonder. This safari covers other national parks too, where you can witness the resident game. The tour is available throughout the year, but opting for it in the right season will leave you awestruck.

All our African wildlife safaris specifically include the Ngorongoro Conservation Area and the world-famous Ngorongoro Crater in Tanzania. This specific African safari and travel itinerary has been designed for visitors with more time on their hands for longer safari tours. It specifically includes the Tarangire National Park and has been designed to offer you a total Tanzania northern circuit safari experience while attempting to keep your non-game-viewing travel time to a minimum.

This safari will also take you to Serengeti National Park, a massive wilderness of 14,500 square km, where every day brings a new landscape and a new adventure. It will also take you to Ngorongoro Crater and the Ngorongoro Conservation Area in Tanzania, featuring one of the highest concentrations of game and arguably the densest population of predators and carnivores in Africa. Here you will witness an amazing spectacle of African wildlife – inside a self-contained world teeming with animals.

TRIP SUMMARY

Country	Starts at	Ends at	Airport	Visited Areas	Activities
Tanzania, United Republic	Moshi Town	Moshi Town	Kilimanjaro International Airport	Serengeti and Ngorongoro	Game Drive Safari

- **Day 1:** Kilimanjaro International Airport to Moshi
- **Day 2:** Nduvu (Arusha/Moshi to Nduvu)
- **Day 3:** Nduvu (Game Drive in Nduvu NCA or Serengeti)
- **Day 4:** Nduvu to Serengeti to Serengeti National Park
- **Day 5:** Ngorongoro Conservation Area (Serengeti National Park to NCA)
- **Day 6:** Ngorongoro Crater Tour (Ngorongoro to Arusha/Moshi)
- **Day 7:** Departure Day

Detailed Itinerary

Day 1: Kilimanjaro International Airport to Moshi

Upon your arrival at Kilimanjaro International Airport (JRO), a Nature Horizons team member will be waiting to greet you. We will transfer you to your hotel accommodation for your first night, where you will meet your safari guide that you will be with for the remainder of your tour. Once you are settled in your hotel, you will receive a briefing on our tour. You can now relax at your hotel. Your trek to the roof of Africa starts tomorrow! As always, if you need anything or would like to head out into town, your guide will be there to assist you 24/7.

Welcome to Africa!

Drive: 45 minutes to one hour

Day 2: Nduvu (Arusha/Moshi to Nduvu)

WWW.NATUREHORIZONSTOURS.COM

info@naturehorizontours.com

+1 (845) 324-9598

The migration safari kicks off by 6:30 AM on the first day. You will be picked up from your hotel in Arusha and head toward the Ndutu region. The drive to Ndutu is about 5.5 hours, covering a distance of 260 kms. Two hours into the drive you will enter the Ngorongoro Conservation Area (NCA), where you will notice the landscape changing from hilly forests to plain and green grasslands. Once you reach Ndutu, you will begin a half-day game drive with a convenient stop for your picnic lunch. Sweeping grasslands cover the region, which gradually fades into the Serengeti.

Ndutu forms a part of the route for the annual migration of more than 2 million wildebeests and thousands of zebra, antelope, and gazelle. During game drives at the proper season between December and April, you will be able to see the fertile plains turn into calving grounds for the great migration. This season attracts hordes of predators preying on vulnerable young wildebeest. Crested with Ndutu lake and Lake Masek, these waterholes offer plenty of wildlife during the dry season. The Ndutu is also the home ground for 6 species of big cats – leopard, lion, cheetah, caracal, serval, and wildcat. The action-packed game drive will end late in the evening by around 5 PM. You will now head towards your choice of accommodation, where a freshly prepared dinner awaits you. Ensure you get some good rest and recharge yourself for another eventful day.

Day 3: Ndutu (Game Drive in Ndutu NCA or Serengeti)

Stunned by the previous day's spotting of the migration, you get another chance to view the beautiful wildlife spectacle. The Ndutu region is a part of the glorious Serengeti National Park and the Ngorongoro Conservation Area (NCA). Heading out for a full-day game drive after breakfast, today you will be following the migration depending on its location in either NCA or Serengeti.

During game drives at the proper season between December and April, you will be able to see the fertile plains turn into calving grounds for the great migration. This season attracts hordes of predators preying on vulnerable young wildebeest. Watching the circle of life take its course will be an unforgettable experience etched in your mind for life. The action-packed game drive will end late in the evening by around 5 PM. You will now head toward your choice of accommodation, where a freshly prepared dinner awaits you. Ensure you get a good night's rest and recharge yourself for another eventful day.

Day 4: Ndutu to Serengeti to Serengeti National Park

The excitement for today will be pretty high as you make your way into the most famous wildlife park in the world – the Serengeti. After finishing up a good breakfast, you will head out toward Serengeti National Park and travel across the never-ending plain grasslands. The Serengeti means "endless plains" in the local African language, and watching the grassland stretch out as far as the eye can see and eventually merging with the sky at the horizon is an absolutely breathtaking view. With an overall land area of 14,763 sq kms, it puts our notion of distance to shame. The Serengeti also houses the glorious "Big 5" (elephant, rhino, buffalo, lion, and leopard).

Along with the "Big 5" is a very pleasant sighting of Africa's most beautiful animals – the Impala. The Serengeti ecosystem supports the greatest remaining concentration of plains game in Africa. You must also look out for the Serengeti "Kopjes," which are massive boulders of granite standing in a sea of grass. They provide ample shelter to a large variety of flora and fauna. A picnic lunch will be served during the day-long game drive. The eventful day comes to an end with a delicious dinner and a good night's rest in your accommodation. Get a good rest in, as for the following day you will move on toward the Ngorongoro Crater.

Day 5: Ngorongoro Conservation Area (Serengeti National Park to NCA)

Today, by 9 AM, you will head out for a short game drive in the Serengeti after a good breakfast. After completing a half-day game drive and a picnic lunch, we will branch out and head toward the Ngorongoro Crater Rim. The 75-km drive to the Ngorongoro Crater Rim will take about 2.5 hours, with mild game action to see along the way. The crater is one of Africa's most impressive geological attractions and a supreme mecca of wilderness. The day comes to an end with a heavy dinner and a good rest in your choice of accommodation. Get a good rest and refuel yourself, as for the following day you will descend into the massive crater.

Day 6: Ngorongoro Crater Tour (Ngorongoro to Arusha/Moshi)

On the last day of your safari, you will have an early start. Finishing up with a quick breakfast, you will make an early descent at around 6:30 AM to the crater floor. Ngorongoro Crater is the world's largest inactive, intact, and unfilled volcanic caldera. It has a massive floor of about 260 sq km with a depth of over 2000 feet. The five-hour game drive on the crater floor will show you a lot of animal action. Keeping the camera ready is recommended. The African elephant, buffalo, black rhino, hippos, hyenas, cheetahs, and lions are found in plenty. After the picnic lunch at the beautiful Hippo pool, you will begin a steep ascent to the top exit of the crater. This is the last leg of your safari, with a four-hour drive left to Arusha. You will be dropped off at your hotel accommodation by 6 PM.

Day 7: Departure Day

With an incredible experience and loads of memories to cherish, this is the time you say goodbye to your team. We are so happy that you made it to the Motherland and experienced an authentic Serengeti Safari. We know you will be back. Today your guide will be with you until we escort you to the airport and say our goodbyes. Thank you for coming on safari with Nature Horizons!.

PACKAGE INCLUDES
